

IAF Membership Benefits

IAF membership gives you access to a network of facilitators worldwide, who work in many different cultures and countries and who can provide advice and support when you are planning an event or activity outside your home region. And because IAF is an organization led by volunteers (apart from the actual management of new memberships and membership renewals), membership also allows you to help shape the organization and the discussions about facilitation worldwide. Our IAF Europe team is working on developing and supporting chapters in various parts of Europe. Our website (www.iaf-europe.eu) lists workshops and meetings in Europe as we are aware of them (you are welcome to post your events as well); provides a Language Café where facilitators can communicate in languages other than English; and provides links to the IAF Methods Database, our conference website, and the IAF Global site. Our monthly newsletter explores how facilitation is being used in Europe and shares information that is useful for European facilitators.
